GAINS IN EARLY DEALINGS

Better Outlook at Pittsburg Helps the Stock Market.

The Steel Securities Advance During the First Hour-A Burlington Annonneement Expected - Dividend Rumors Regarding Pennsylvania.

NEW YORK, April 18.-The Stock Mar ket opened showing somewhat irregular changes, but for the most part at advances in comparison with yesterday's final figures. The advices regarding the labor situation at Pittsburg, while somewhat indefinite, were in the main encouraging, and on this account the United States Steel stocks opened at material advances from yesterday's last prices. Other noteworthy gains in the industrial

quarters were noted in Sugar Refining and American Smelting. Among the specialties, there were tremendous transactions in Amalgamated Copper and Anaconda Mining, without, however, comparatively narrow limits.

The dealings were in tremendous volume throughout the market, with the rail-way list showing a number of extensive movements. Northern Pacific and Burlington and Quincy were somewhat reactionary, although it was expected that the so-called deal between these roads would probably be announced today. The Eric issues opened exceedingly strong and ac-

declared at the approaching declaration period.

The local traction issues were comparatively quiet and showed small price changes from yesterday's level.

London furnished a generally lower range of prices for American stocks, though the Erie issues were exceptionally firm. The dealings here for foreign account were upon both sides of the market. Aside from the more favorable intelligence from Fittsburg respecting the labor troubles there was no news over night bearing upon the market.
